

**1.** Place Coco Block in water-tight container.

**2.** Add water over block-soak 10-20 minutes.

**3.** Mix to wet all, remove excess H<sub>2</sub>O and use!

## USAGE CHART

**Full Block + 7 Gal H<sub>2</sub>O = (approx.) 2.5 cubic ft.\***

For full bag use a 25 gallon container or large to medium wheelbarrow

**1/3 Block\* + 2.3 Gal H<sub>2</sub>O = (approx.) .75 cubic ft.\***

Perfect for 2 gallon pots.

**2/3 Block\* + 4.6 Gal H<sub>2</sub>O = (approx.) 1.5 cubic ft.\***

Perfect for 4 gallon pots.

\*For individual container use, follow yellow dotted lines at edges of label to slice content into thirds. Compression rate is 4-to-1.
