

AACH25

Water Temp °F

MODEL: AACH25 • AMBIENT TEMPERATURE: 86°F • REFRIGERATION CAPACITY: 300L (79 gal)

The refrigeration performance test is indicated when the ambient temperature is 86°F, the water temperature before refrigeration is 82°F, and the water refrigerated is 300L (79 gal). When water refrigerated is reduced, the water temperature will drop down to any degree above 39°F in a short period of time.
