Replace the pH probe rather than the whole Bluelab Meter!

The Bluelab pH Probe is a replacement pH probe suitable for use with all Bluelab products that use a BNC fitting.

pH probes do not last forever as they age through normal use and will eventually fail. With good care and use (keeping the probe tip moist and cleaning once a month) you will extend its life.

The Bluelab pH Probe has a double junction reference providing longer life and is a gel filled non-refillable probe so is maintenance free.

Features:

- Easy to clean
- Gel filled (non-refillable)
- Double junction
- Waterproof cable joint
- Probe holder supplied – keeps probe secure
- Quality BNC connection
- 2 metre standard cable

Product Guarantee:
 Six month free repair or replacement guarantee.
