GENERAL HYDROPONICS

WARRANTY & MERCHANDISE RETURN POLICIES

General Hydroponics, Inc. products are covered by the following warranties and/or return policies. In no instance will General Hydroponics, Inc. become liable for any losses associated with the performance failure of any product. General Hydroponics' liability is limited to issuing a refund (if applicable), or replacement of the product with like kind.

LIMITED WARRANTY

General Hydroponics, Inc. will repair or replace any General Hydroponics, Inc. product found defective within six months of original purchase. To exercise the warranty rights the purchaser must contact General Hydroponics, Inc. at (707) 824-9376 and obtain a "WARRANTY CLAIM NUMBER (WCN)" then return the merchandise with a copy of your proof of purchase (shipping prepaid) to General Hydroponics, Inc. Some components of the hydroponics systems have warranties that supersede or extend that of General Hydroponics, Inc.

RETURN POLICY

Unopened merchandise purchased directly from General Hydroponics, Inc. (excludes custom order merchandise) can be returned within thirty (30) days of purchase. To obtain a refund the customer must contact General Hydroponics, Inc. at (707) 824-9376 and obtain a "RETURN MERCHANDISE NUMBER (RMA)" then return the merchandise with a copy of your proof of purchase (shipping prepaid) to General Hydroponics, Inc. A restocking fee of eight percent (8%) will be deducted from the refund.

Step 3

Insert the Drain Assembly removed from the AeroFlo² 60 into the **lower grommet** on the other end of the Extension Reservoir.

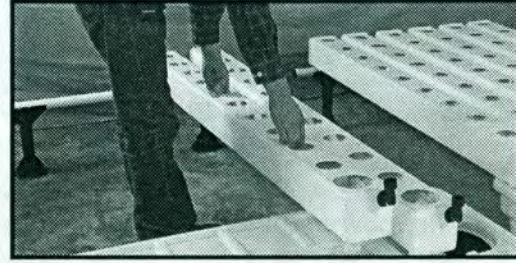

Step 4

Remove the end cap from the AeroFlo² 60 manifold assembly.

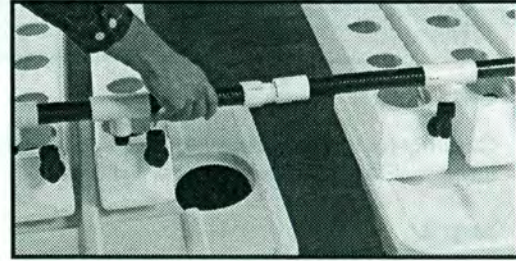

Step 5

Place the Extension Chambers on the Extension Reservoir.

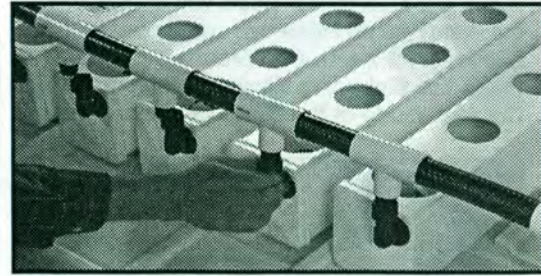

Step 6

Thread the Extension Manifold onto the AeroFlo² 60 Manifold. As you turn the manifold be sure that the individual manifold connections are lined up with the Chamber inlets to facilitate connecting to the chambers.

Step 7

Attach the Manifold to the individual Extension Chambers. Insert the Netcups, CocoTek Cups and Hydroton media in the Extension Chambers as described in the AeroFlo² 60 instructions.
