

MEAL MIX™

Media Amendment

5 - 2 - 2

MOTHER EARTH MEAL MIX™ is a carefully selected blend of natural materials, formulated to provide a baseline media amendment to build upon for the vegetative stage. It is a distinct mix of beneficial ingredients that is intended to be used as an additive to your favorite growing media by either blending it in or as a top dress.

APPLICATION: Blend 3/4 to 1-1/2 pounds (2 to 4 cups) into 1 cu ft (6.43 gal) of pre-planted soil or coco fiber. Use 50 to 80 grams (1/3 to 1/2 cup) per gallon of media. For media that already contains significant nutrition cut these rates by 2 to 4 times. Do not use with very "hot" soils until the initial charge starts to diminish. For already planted media, top-dress with 10 to 20 grams (1 to 2 Tbsp) per gallon of media weekly. Work into the top 1-2 inches and cover with 1-2 inches of fresh media.
