

## Recycle Adjustable Timer Instructions

The CYCLE TIMER controls any 120V equipment such as irrigation pumps, foggers, fans or CO<sub>2</sub> generators on periodic cycles. The output is repeatedly turned ON and OFF for periods corresponding to the ON and OFF times.

### Setting the Times:

Set ON Time from 1 to 60 minutes.

Set OFF Time from 5 minutes to 12 hours.

### Selecting the operating mode:

DAY: the output is activated during the day only.

24 HOURS: the output is activated day and night.

NIGHT: the output is activated during the night only.

### Photocell:

The PHOTOCELL serves as the Day/Night detector.

### Output Indicator:

The OUTPUT INDICATOR is lit when power is applied to output cord (piggy back cord).

### Initiating Use:

Plug equipment into output cord (piggy back cord).

### Specifications:

120 Volts | 12 Amps OR 1/2 HP Max. | 60 Hz
